

## Dear Patients, we are still open.

If you don't already follow us on social media, please do! We don't want to bog your email down so daily updates will be on Facebook, Instagram and Twitter! Click on any of these for the direct link. Be sure to like and follow us so we stay in your news feed! And when this passes (hopefully sooner than later!) we hope you continue to enjoy our social media for oral health tips, partnership thanks, community events and all other things teeth and wonderful!! 😊

### **At this time, we are staying open and here's why:**

1. Your overall health is our priority.
2. Our hospitals and clinics do not need more burden. Without proper prevention and restoration, dental emergencies will drag down our healthcare system, the real danger COVID-19 could pose.
3. We've been sterilizing, disinfecting and disposing, ALWAYS. (The difference now, our reception area is on constant wipe down!) Trust us!
4. Our staff wants to be here to continue serving the community for as long as the CDC and ADA are permitting it. We are constantly checking in.
5. We are a small group with approximately 10 people at a given time. If you're having any symptoms, don't leave your house or come here, but DO call us-- like yours, our time is still valuable. (Yes, asymptomatic ppl can be carriers but the risk is MUCH lower).
6. Like Psalm 46 says, "God is our refuge and strength, an ever-present help in time of need"! ♡
