

## Rick's Story

*"If your inner voice tells you you can't paint, then by all means paint and the voice will be silenced." Van Gogh*

Rick learned about ADC at the annual spring Touched Twice ministry, where he and his wife have come for dental cleanings. He needed more extensive dental care involving lab work and multiple appointments, which made ADC a great option for him. His wife, Diane, works at a local grocery store and Rick recently started a new venture selling affordable camping and outdoor supplies. This allows him to work from home, which is an incredible opportunity for Rick since he has suffered from seizures that have often classified him as unhireable and caused him to lose work. If you want to help Rick out more, check out his online store! [www.newmansoutdoorgear.com](http://www.newmansoutdoorgear.com)
