

## Trevor's Story

Trevor's mom lost her dental insurance when she went part time in order to care for her sick mother. Her older son had a toothache. When she brought him to the local dentist, she was given options to save his permanent molar. She wanted to, but she simply could not afford it. So, when Trevor began having the same symptoms, she reached out online with a Facebook post, "Looking for an Affordable Dentist." We were tagged in the post and Trevor was seen in our office the following day.

Trevor was the recipient of an Agape grant provided by Deerfield Elementary School students through a penny war in February, which is National Children's Dental Health Month. The students grade K-6 raised enough money to cover all of Trevor's treatment, which saved his molar.

Students, principal, teachers, mom, Trevor -- you are all amazing and inspiring!! #kidshelpingkids
