

Vicky's Story

Vicky came to Affordable Dental Care (ADC) after hearing about our clinic and mission on news channel NBC15. Her medical doctor implored that she go see a dentist because her entire body was suffering from what he believed stemmed from dental conditions. She came to us after 40 YEARS of not having been to the dentist. "My self esteem is nil," she told us in regards to how her smile affected her. She and her husband both work but their incomes don't cover enough for dental care, nor do they qualify for government aid. They are the sweetest, most grateful people and we could not be more thrilled to see the transformation of her smile and health through many wonderful visits together!

Midway through Vicky's treatments with us, their apartment building caught fire, killing one infant in the building. Thankfully, they didn't lose anything in comparison to a life, but they did have to stay out of the building for a time, yielding unexpected expense. "It was a treat to have cable at the hotel though," added Brett, Vicky's kind and supportive husband.
